

EASY ON THE EYE, EASY TO USE... THAT'S ELITE HIDEAWAY® POOL COVERS

Out of sight and out of mind, that's the Elite Hideaway® difference. When not in use your Elite Hideaway pool cover is stored away. It's easy to operate, simply lift the lid and pull out the solar blanket when needed. When storing simply put the handle onto the special 90° gear box and turn. It's that easy! The other unique benefit is this range can be installed to new and most existing pools of almost any shape and size. The Elite Hideaway Pool Cover not only is aesthetically pleasing but it saves time, money and our most precious resource, water.

ALUMINIUM HIDEAWAY POOL COVER:

- Anodized aluminium lid.
- All anodized aluminium box underground.
- Blanket is stored away, out of sight when not in use (this extends the pool blanket life).
- Save time, money and add value to your home.
- Manual (handle) or automatic remote control option.
- To open - lift the lid and simply pull out the pool cover when required (one person operation).
- To close - wind blanket back into the box placing long handle onto 90° gear box and turning, when complete place handle inside the box.
- DIY installation or we can install for you.

SEMI-AUTOMATIC LID MOUNTED POOL COVER & ROLLER:

- Lid mounted cover and roller with a choice of lid materials.
- Anodized aluminium encased underground box.
- Automatic lift and wind options are available.
- To open- lift the lid and pull out the blanket using the pull cord.
- To close- wind blanket back using steering wheel, when complete close lid.

ALUMINIUM HIDEAWAY™ POOL COVER

THE RANGE

ELITE STANDARD ROLLER

The Elite Standard Roller is a great economical all aluminium roller that will give many years of effortless and trouble-free operation.

ELITE MOBILE DELUXE ROLLER

The Elite Deluxe range of rollers are available either mobile or stationary. Featuring powder coated frames, a cool touch powder coated handle, over-cover retainers (that stops the over-cover from being blown off). Plus Elite's

exclusive drop pin brakes on both mobile and stationary units. (Preventing the roller from tipping or sliding).

ELITE PLATINUM RANGE

The New Elite Platinum range of rollers are available either mobile or stationary. Featuring anodized frames, a large easy wind wheel/handle combo, over-cover retainers (that stops the over-cover from

being blown off). Plus Elite's exclusive drop pin brakes on both mobile and stationary units. (Preventing the roller from tipping or sliding).

ELITE PLATINUM PLUS RANGE

The exclusive top-of-the-range Platinum Plus Roller is the Rolls Royce of rollers. Featuring an extra strong design, fully corrosive resistant anodised finish, mobile or stationary operation, tall frames,

large easy wind wheel/handle combo and twist drop in brakes. (Preventing the roller from tipping or sliding).

ELITE

SOLAR BLANKETS

FACTORY SHOWROOM: 10 Cressall Road, Balcatta

Disclaimer: Children should not be left unattended around swimming pools without adult supervision. Solar Blankets do not offer any safety for children or pets around swimming pools.

The most cost effective method of increasing your summer pool fun by up to 4 months is with free heat from the sun. With the Elite Solar Blanket - the blanket becomes a giant solar energy collector.

The sun's energy absorbs easily through the blanket, heating the water underneath and the trapped heat remains in the pool - where you want it.

Not only does it heat the pool for free, but the Elite Solar Blanket keeps the pool cleaner and saves precious water by stopping evaporation.

Elite Solar Blankets are proven to heat and insulate better than other pool blankets*

Poolview®

ELITE SUPER BUBBLE® POOL BLANKETS

Elite Super Bubble® pool blankets are formulated to last in Australia's harsh environment.

Over the past 22 years Elite has developed the best plastic formulas and colours that will give you the longest lasting, best performing pool blankets available on the market.

WHY ELITE SALTSAFE® POOL BLANKETS?

When you cover a saltwater pool, the chlorine levels can rise to an unsafe level for blankets - causing premature failure.

Standard blankets have the same thickness top and bottom and the chlorine can eat the bottom away very quickly.

Elite SaltSafe® blankets have a thicker base which gives a longer blanket life, offering you better value for money.

It is important to always test your chlorine levels regularly.

*Independent scale tank tests and comparative guarded hot plate tests to Australian Standard AS4859-1

PRO-RATA WARRANTY FROM 4-10 YEARS.

ELITE SOLAR BLANKETS & ROLLERS

Test results prove they heat better, insulate better and last longer*

To extend your summer and enjoy your pool longer it's the Elite Solar Blanket - A range to fit all pools and budgets

WHAT MAKES ELITE POOL BLANKETS BETTER!
